

BURHANI STS INDUSTRIES PVT LTD

**YOUR RELIABLE
PACKAGING
PARTNER**

WHO ARE WE?

Burhani has partnered with STS Mechatronics Bulgaria and this enables us to enjoy sophisticated and state of the art technology and equipment in the packaging field. We are the leading manufacturers of plastic tubes, caps and shoulders. Our vast and expert knowledge, workmanship, in-house design service and quality products in the packaging markets have made us a leading supplier in the South Asia and Middle Eastern market and Europe region.

We've aligned ourselves with the best international packaging standards to enhance and diversify our offerings to meet the highest local and international standards by producing innovative and quality plastic packages at cost effective rates thus enhancing the value of our customers' brands.

Our professional expertise cover; personal care, pharmaceuticals and household products markets.

CEO'S MESSAGE

Burhani STS has been a leader in the tube making industry for more than 5 decades and it is our aim to see that we continue production with absolute adherence to quality and safety standards. We have a responsibility to safe guard our customer interests by having a transparent working relationship and effective communication. With cutting edge technology, we aim to provide our customers with the latest innovations that our field has to offer

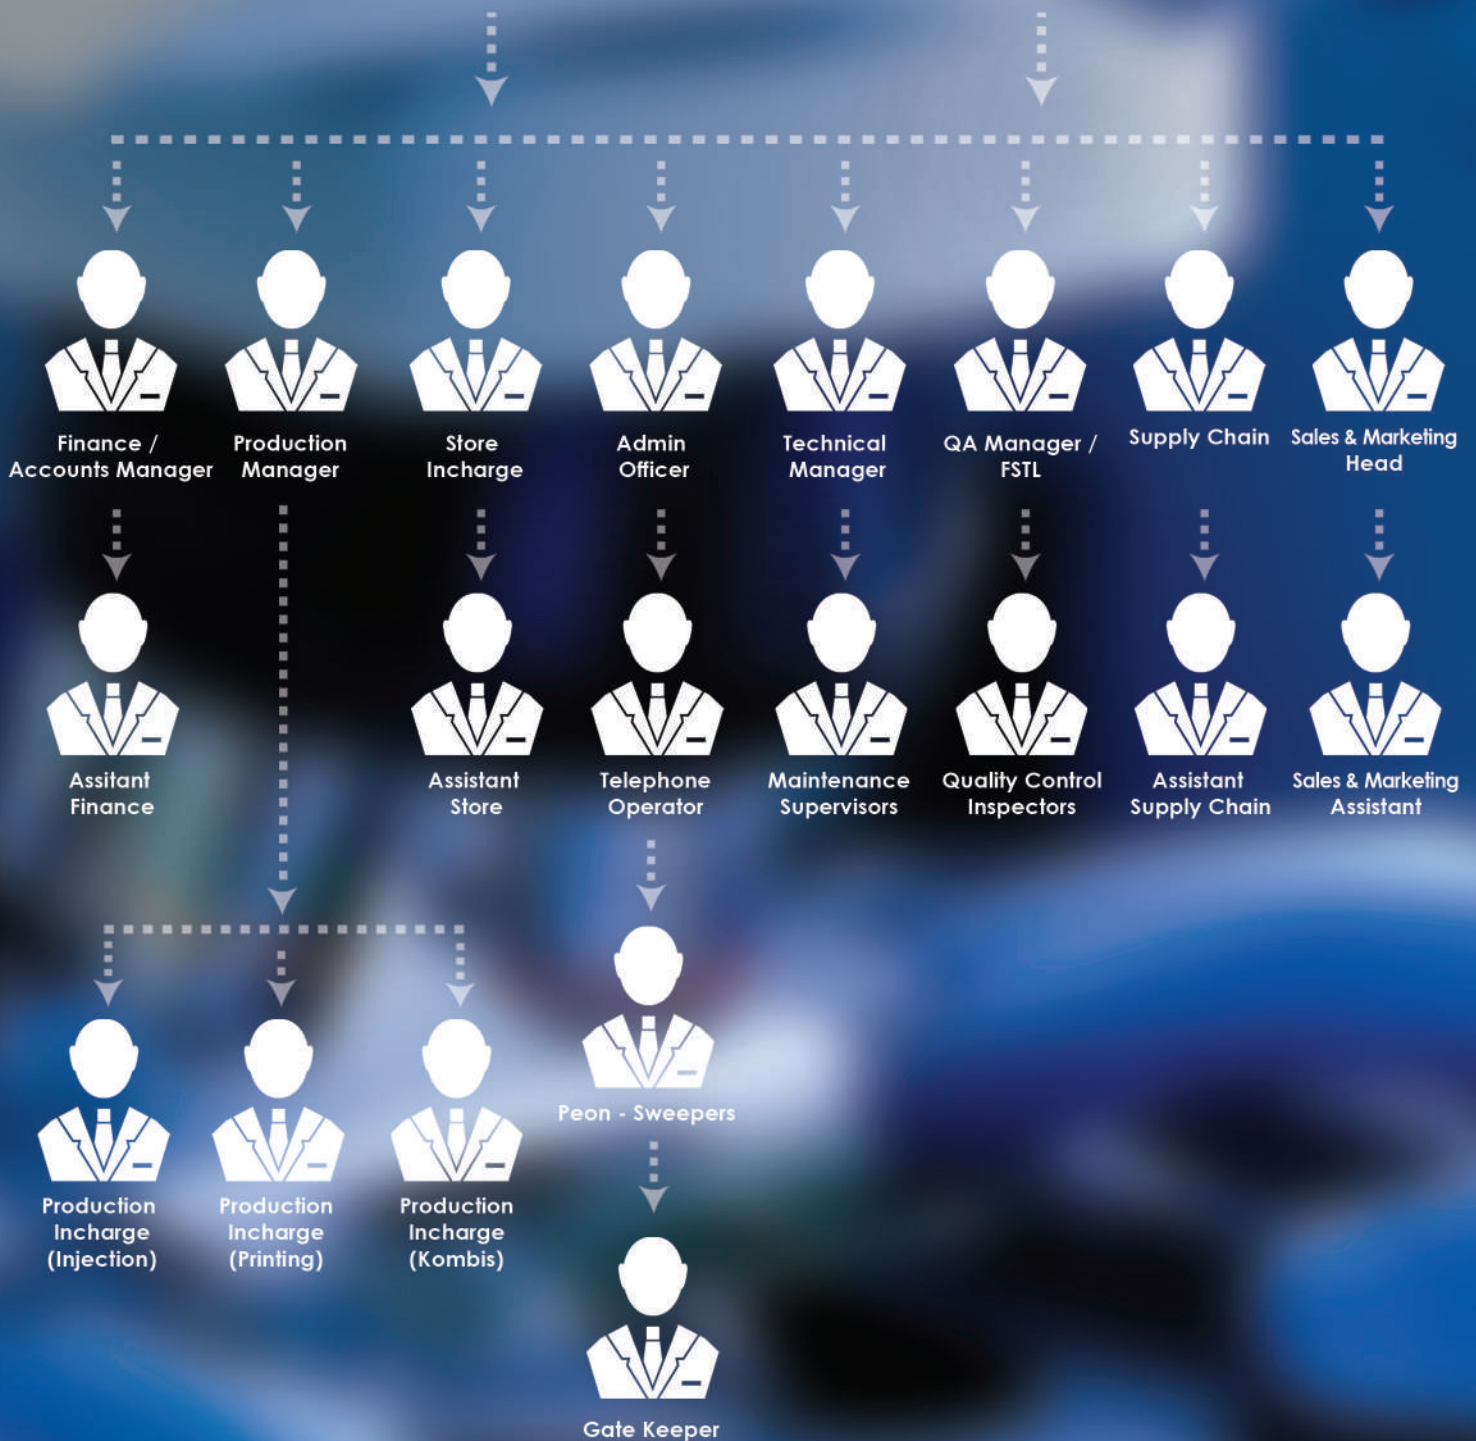

ORGANIZATION CHART

Chief Executive Officer

Director

A grayscale photograph of a factory interior. In the foreground, a worker wearing a hairnet and a face mask stands with their back to the camera, looking at a large industrial machine. The machine has a control panel with a screen and various buttons. The background shows more of the factory floor with other equipment and bright overhead lights.

OUR VISION

To shape the future of the tubing industry with innovative ideas and cost-effective techniques through which we aim to deliver a high-quality product for our customers.

OUR MISSION

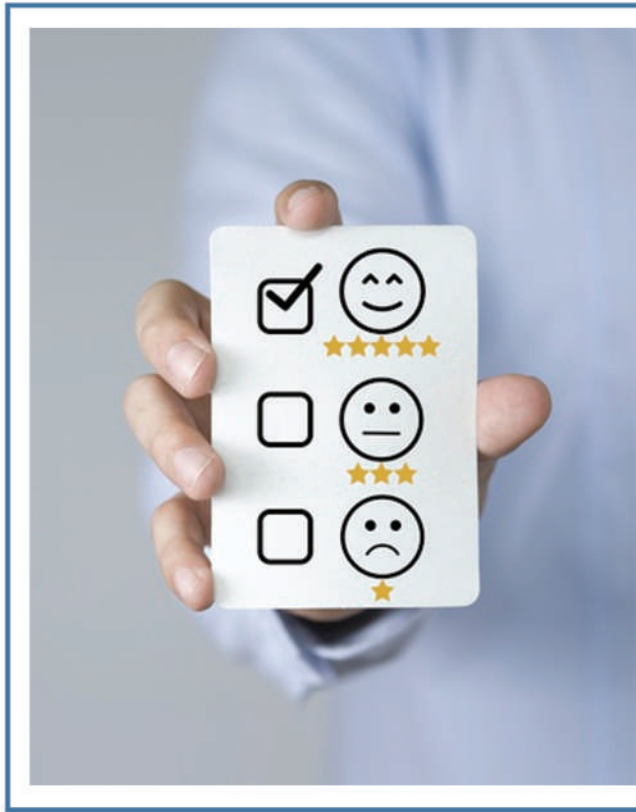

Our mission is to provide the highest possible quality at reasonable price. To be leaders in packaging delivering exceptional value for our customers, employees communities and consumers at large while adhering to ethical and safety standards.

OUR GOALS

Burhani's contribution to the packaging industry is to provide quality and cost-effective products to key customers throughout Pakistan within a variety of divisions which include ; household, pharmaceutical, cosmetics and more across a large number of market sectors.

COMMITMENT

We guarantee customer satisfaction by fulfilling orders in a timely fashion using the highest quality of raw materials and cutting-edge technology. Burhani does not compromise on quality and our products adhere to international standards at all times. We strive to build trustworthy and long-term business relationships.

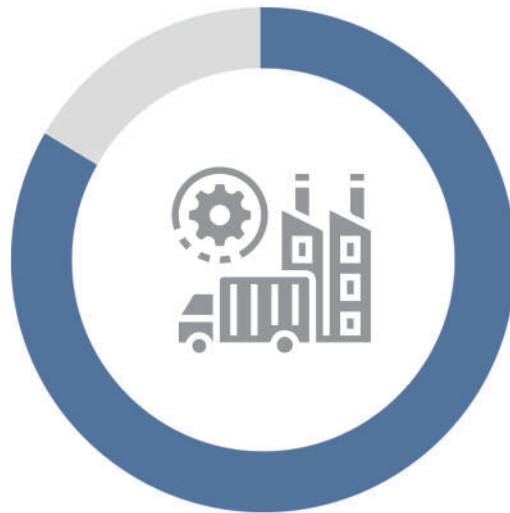

WHAT WE DO

We provide a variety of plastic laminated tubes in different sizes and shapes and our tubes are developed to meet the unique customer requirements in nearly every industry

Together with the management, our staff and employees follow and work in accordance to the corporate strategy and corporate mission to ensure timely supplies and high end product quality throughout Pakistan.

OUR STRENGTH

Close collaboration with international suppliers and foreign affiliation to maintain quality & standards.

Timely Supply

Reliability

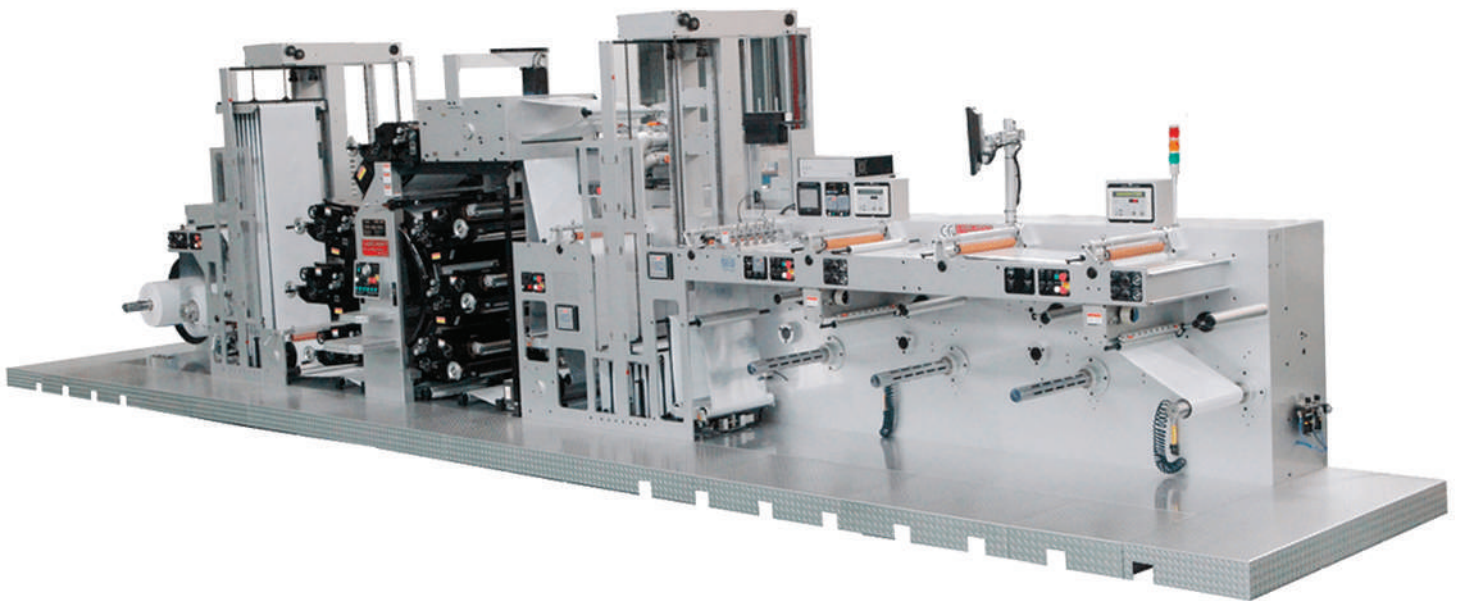

Trust

Latest technology and premium raw materials
to produce quality products

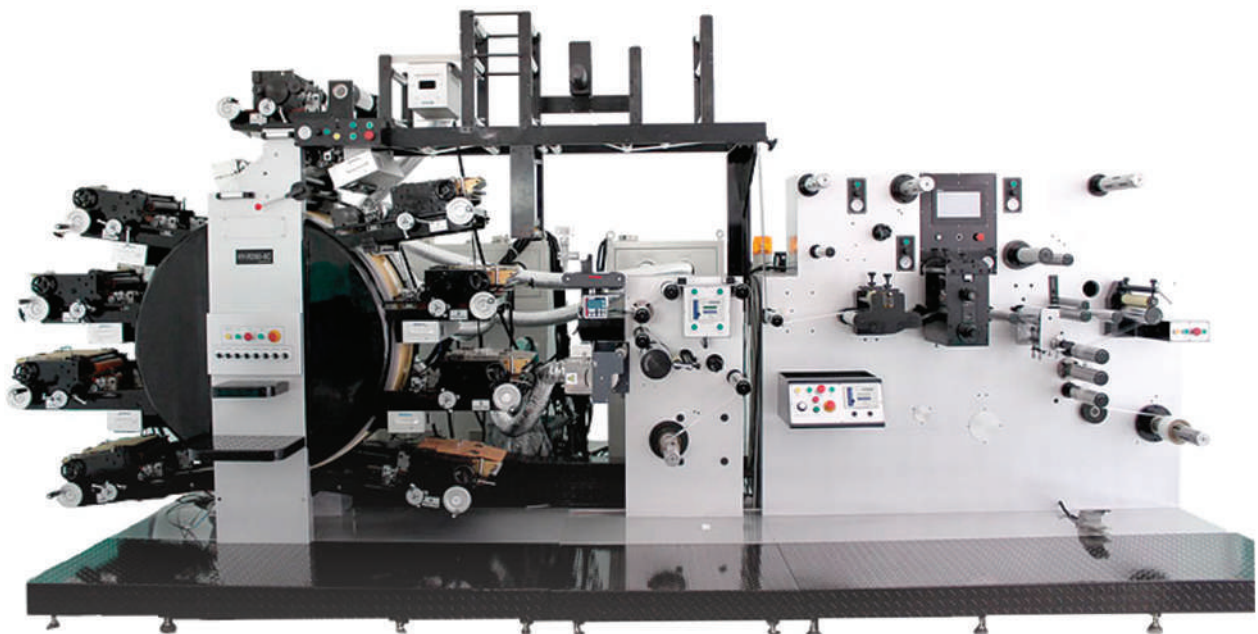

OUR PLANT

PRINTING

Our Lableman printing machine was highly recommended by our Principals STS Machatronica and was installed in 2002. This machine is a 6 color LETTERPRESS with cold stamping unit.

Our second machine HONTEC was installed in 2020 and it has an 8-color printing with two cold stamping units. Both the machines are housed individually in temperature-controlled rooms.

TUBE MAKING

Our state of the art machines are European and manufactured by Mechatronica SC. All machines are housed in separate temperature-controlled rooms to ensure absolute quality and production according to customer specifications.

OUR HUMAN RESOURCE

Our workers are our most valuable asset. Their skills and dedication bind us together and help us to achieve our objectives. An induction period and initial training is conducted for each and every staff member and then they are trained on the job with quality being the top most priority.

WORK AT GLANCE

OUR EXPERTISE

Plastic Barrier Laminated Tubes & Aluminium Barrier Laminated Tubes (PBL and ABL)

PBL & ABL Tubes are preferred by personal-care brands, pharmaceuticals, food industry and more. Laminated tubes are perfect for beauty brands, because they provide barrier and preservation properties to keep the product protected, with the potential for sophisticated and high-end decoration. A full range of sizes are available from a small 13mm diameter to a 60mm diameter.

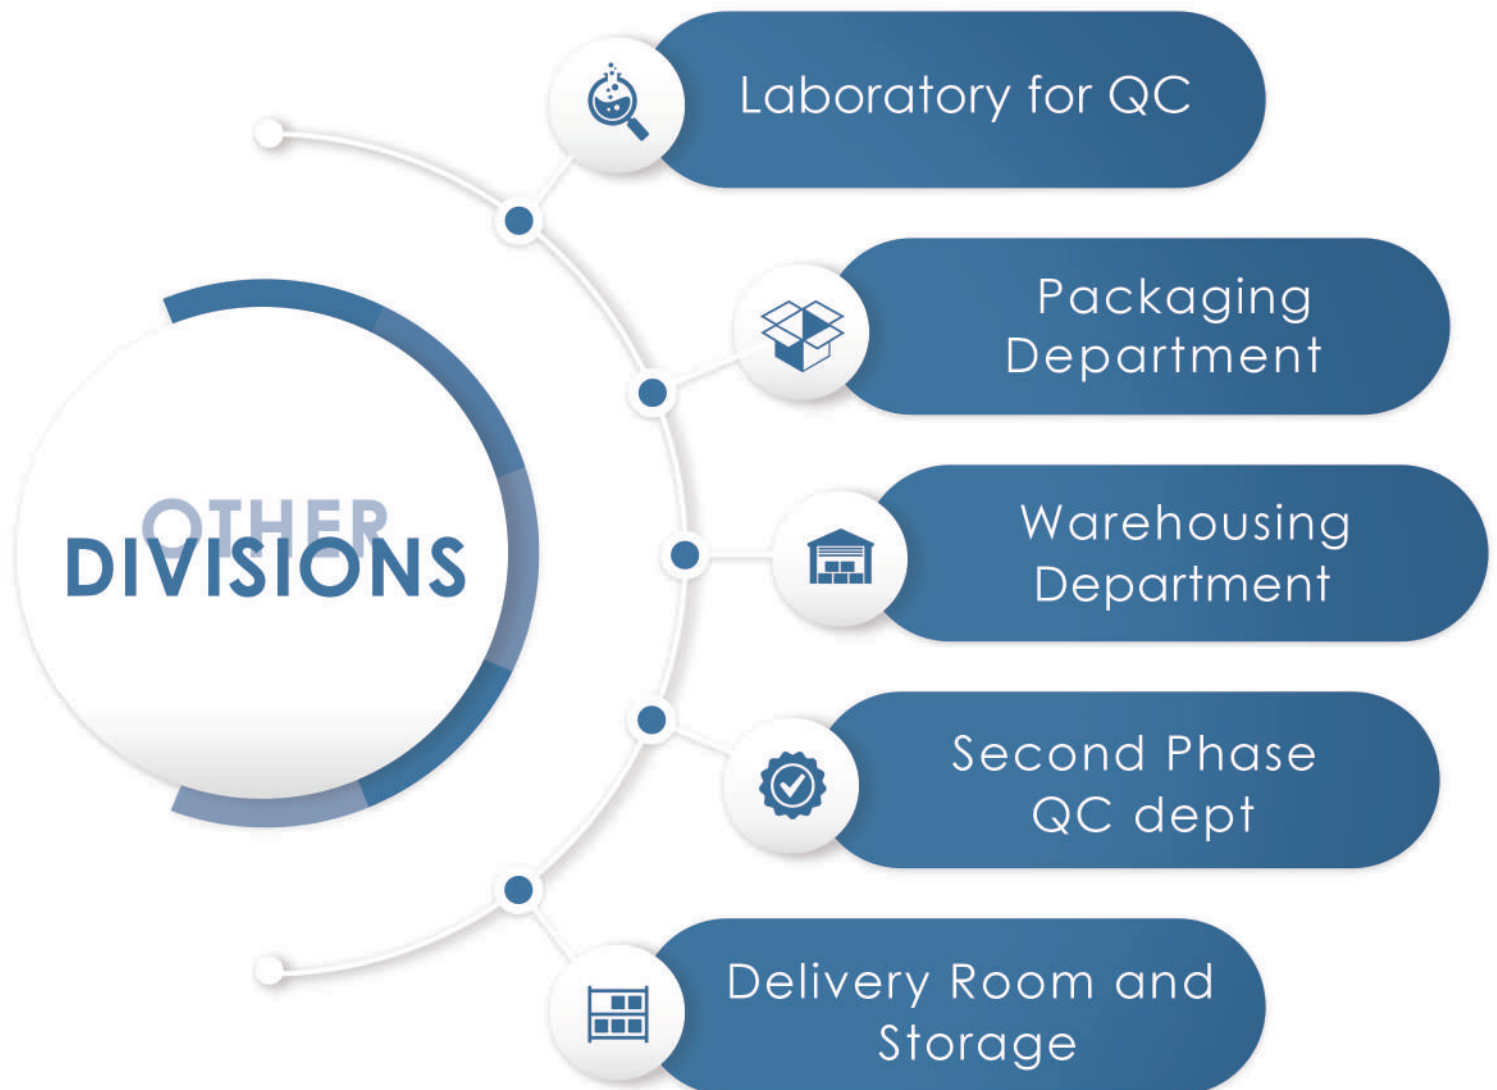

Caps & Shoulders

PBL & ABL Tubes are preferred by personal-care brands, pharmaceuticals, food industry and more. Laminated tubes are perfect for beauty brands, because they provide barrier and preservation properties to keep the product protected, with the potential for sophisticated and high-end decoration. A full range of sizes are available from a small 13mm diameter to a 60mm diameter.

Contract Manufacturing

Our Principals engage in contract manufacturing with the FFS 60 machines. These machines allow the manufacturing, filling and sealing of the product under one roof and have been installed in countries around the world.
